The minor editorial changes proposed in this schedule are being proposed as a result of further factual updates and editorial corrections identified since the submission of the Housing & Employment Land Allocations Development Plan Document: Revised Submission Draft. This document will be updated as necessary during the Examination of the Housing and Employment Land Allocations Development Plan Document: Revised Submission Draft (April 2014) and the Examination Hearing in January 2015. The date that the schedule was last updated will be recorded in the footer of the document to avoid confusion between different versions. Deleted text is shown using strikethrough and additional text is underlined.

**HE/MIN49**  123  Paragraph 4.32

Amendment to the paragraph through the deletion of the words “….the plan SHBE1 (A- Halton Marsh and B Killingholme Marsh)”, from the fifth sentence, and the inclusion of the following wording “The preferred alternative locations for waterbird mitigation at Halton Marsh and Killingholme Marsh, have been indicated on Inset 57”. This reflects the Statement of Common Ground agreed in relation to the South Humber Bank with RSPB, Natural England and Lincolnshire Wildlife Trust. This will read as follows: “The preferred alternative locations for waterbird mitigation at Halton Marsh and Killingholme Marsh, have been indicated on Inset 57”.

Agreed through Statement of Common Ground with RSPB, Natural England & Lincolnshire Wildlife Trust

**HE/MIN50**  123  Paragraph 4.34

Amendment to the paragraph through insertion of a new third sentence. This reflects the Statement of Common Ground agreed in relation to the South Humber Bank with RSPB, Natural England and Lincolnshire Wildlife Trust. This will read as follows: “If the option to provide a smaller area of waterbird mitigation land on East Halton Marsh is carried out there will be a requirement to provide a further 50 hectares of waterbird mitigation offsite comprising 20 hectares of core habitat plus a 150 metre wide wetland buffer. If the larger area is provided, then the additional 50 hectares will not be required. The current waterbird mitigation sites are indicated on Inset 57”.

Agreed through Statement of Common Ground with RSPB, Natural England & Lincolnshire Wildlife Trust

<tr>
<td>HE/MIN54</td>
<td>127</td>
<td>Para 4.51</td>
<td>Delete current paragraph and replace with new updated text. The site at Halton Marshes north of the Humber Sea Terminal has planning permission to develop 270 hectares of port logistic land uses and includes land for landscaping and wildlife conservation. The Able Marine Energy Park (AMEP) at Killingholme Marsh is a major infrastructure proposal (terrestrial development area of 245 hectares and 46 hectares of concrete quays reclaimed from the Humber Estuary) that includes a proposed new port at the South Humber Bank, also includes land for landscaping and wildlife conservation. The associated Public Examination finished in November and was approved by the Secretary of State in December 2013. Port development alone is predicted to generate over 4000 jobs on site in addition to many more expected in ancillary industries. The Able Logistics Park at Halton Marshes north of the Humber Sea Terminal offers a 497.5ha (1,229.5 acres) site with full planning permission in place for the creation of extensive warehousing (1,700,000m²), external storage and transportation depots. 300 constructional jobs are expected to be created with some 4100 direct jobs in relation to the Able Marine Energy Park and many thousands of additional jobs expected to be created by the supply chain. The Able Marine Energy Park (AMEP) at Killingholme Marsh designed following extensive liaison with the offshore wind industry, will offer 1,289m of new heavy duty deep water quays and 366.7 hectares (906 acres) of developable land. It is designed specifically for the marine renewables sector providing a multi-user facility for the manufacture, storage, assembly and deployment of next generation offshore wind turbines and their associated supply chains. It is comprised of approximately 75,000 sq m of gross floorspace over some 11 buildings with the remaining open site area to be used for infrastructure, storage and assembly uses. A Development Consent Order for AMEP was granted by the Secretary of State for Transport in December 2013.</td>
<td>To reflect the current situation with the Able Marine Energy Park and Able Logistics Park.</td>

<td></td>
<td></td>
<td></td>
<td>New paragraph to reflect proposed highway improvements to the main Airport access and elsewhere on local highway network. Currently access into the airport is achieved by one junction off the A18. This junction is currently not traffic light controlled and has a central right turn lane for traffic heading to the airport from Melton Ross. In recognition of the strategic economic importance of Humberside Airport, improvements to the surface access have been sought with funding secured by the Humber Local Growth Fund. Construction work is due to start in 2015 for a new roundabout on the A18 at the existing access into the airport, a new signalised junction at Barnetby Top (A18/Kings Road junction) and local widening along Caistor Road. These works are expected to be completed by 2016. These access improvements will provide an appropriate level of infrastructure to accommodate the scale of additional employment allocations required at the airport.</td>

<tr>
<td>HE/MIN62</td>
<td>138</td>
<td>4.93</td>
<td>New addition to the end of the paragraph to reflect proposed highway improvements to the main Airport access. Paragraph to read as follows: The site is adjacent to Humberside Airport that offers excellent air freight opportunities and good strategic access via the A18 and M180. Access would be through the existing airport business park from the A18. It forms an ideal site for B1 (Business/Light Industrial), and B8 (Storage and Distribution) uses particularly those associated with air freight or training operations. Given the secured works to improve the airport’s main access it is unlikely that the development of this site will require further short term improvements to the main A18 Airport junction. However, the effective operation of the improved A18 junction will be subject to monitoring by the Highway Authority.</td>
